

EasyCancel Support

Need help? Email us at support@vincli.com — we aim to reply within 2 business days.

How does cancelling work?

EasyCancel tracks each subscription's 14-day cooling-off deadline and generates a withdrawal/cancellation letter for you. Tap a subscription → *Cancel now* → *Send cancellation letter* to share it with the merchant (e.g. by email), then mark it as cancelled to keep a record in your Vault. EasyCancel does not contact the merchant automatically.

How do I add a subscription?

Tap the + on the Home screen to add one manually. You can also paste a confirmation email and EasyCancel will fill in the details for you.

How do I manage or cancel EasyCancel Pro?

EasyCancel Pro is billed through Apple. To manage or cancel it, open the iOS **Settings app** → **your name** → **Subscriptions** → **EasyCancel**, or use *Restore purchases* in the app's Settings.

How do I export or delete my data?

In the app: **Settings → Export my data** or **Settings → Delete account**. Deleting removes your account and all associated data.

Which countries are supported?

EasyCancel is built for the EU/UK right of withdrawal and is localised for English, German, French, Spanish, Italian, Dutch and Polish.

EasyCancel is operated by VINCLI LTD.
